Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Why are we trying to take away a system that has had its start before I was born. This system work wonderfully and has done so my entire voting life. It has made voting much more convenient. I do not need to take time off of work. My dad who is disabled can vote without the pain and suffering it would cause if he were to have to stand in line.

Changing this method of voting would prohibit some members of this State from voting at all! This change will hinder voting for many disabled individuals. This change will hinder voting for those who have to work, This change is WRONG and does nothing but make it harder to vote.
