Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I have been an American citizen since I was born in California, to parents who were also citizens. I have been an Oregon resident since I was about 4 or 5.

Oregon has to stop the illegals from voting. Getting our citizenship verified will help.

The financial impact of not sending out all those ballots must be considered a benefit.

Whereas I have never mailed in my ballot, always getting to the county to give it to the clerk or use the box there, I would suggest this be a choice for those who could not stand in a voting booth.

This is a start, to clean up our roles. I will vote for getting rid of mail-in voting.
