Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Before vote by mail was enacted voting in person had become very difficult for me because I worked four ten hour days with a two hour commute, and my polling place was moved from two to six miles away. Thus, I was voting by absentee ballot.

Voting by mail was a big benefit, and I have enjoyed it ever since--not having to drive or stand in line.

I think it benefits others who have busy schedules with work, family obligations, or people who do not have transportation.

Voting is a right but also an obligation, and we should make it as easy as possible to vote. Plus the cost of polling places and workers would add to the State's budget.

Let's keep what works. Thank you for the opportunity to comment.
