SB210

I've voted exclusively by mail for the last 7y. I've been a resident of Oregon my whole life and this is by far the most superior way to vote. I do not have to take time off of work to vote. I do not have to wait in long lines to vote. I don't have to worry about being intimidated by somebody in line at a polling station. Please do not eliminate mail-in voting, as it exclusively creates voter suppression.
