Senate Committee On Rules

Measure, Appointment or Topic:

SB210

SB210 doesn't fix the issue and wastes taxpayer money.

Oregon has a modern voting environment for our elderly, blue collar, and more remote Oregon communities, where modern solutions can be found if there are issues without a current remedy. Authoring of this bill is using taxpayer dollars to blindly follow conspiracy theories and malinformation intended to erode trust, divide our fellow Americans, and instill fear.

I strongly oppose SB210 and know we as Americans can create solutions without the TV theatrics of bill writing.
