

Submitter: Evan Brazie

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I strongly oppose this proposed measure. This is a means to suppress voters and citizens alike, with no prior evidence to prove voter fraud is real. There should be absolutely no talk of removing mail-in voting, until this country can guarantee and provide the following for everyone: Every single district/local area having a dedicated poll place; dedicated transport for those voting who cannot travel on their own; a federal day off to guarantee ALL can vote; early voting to allow those who work on Election Day the chance to vote; and many many more.

Voting is an American right and to stifle any and all options without providing alternative & equal opportunities is unjust. This is an attack on a voting system that works.
