Senate Committee On Rules

Measure, Appointment or Topic:

SB210

SB 210

I strongly disagree with this measure. It is a thinly disguised effort to limit voting, especially by hourly wage earners, the poor who can't get transportation and the venerable who can't stand for hours and are more susceptible to disease. In person voting makes it easier to intimidate voters. It would cost a fortune to implement as we currently have no infrastructure to support it. It is a massive waste of time and money.

Clearly, if one cannot win fairly in a free election with many voters; limiting voting is the simplest way to cheat.

Please kill this measure (nonsense).
