I oppose this bill to eliminate mail in voting for Oregonians -

As a long time cybersecurity expert with almost 20 years of experience working for National Security concerns, the fact that ANYONE would attempt to refute the efficacy and auditability of Mail In Voting is borderline criminal.

Who do these people think they are?

I will show up in person and tear apart any so called "expert" the opposition can muster, when we all know they are wholly incapable of finding any professional willing to put their name by their criminal antics, outside of a paid for shill who has no contemporary experience in audits, cybersecurity risk and governance or any other applicable field.
