

Submitter:

James Murrell

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This is common sense to me. Voting is such an important piece of our country's history, operations and future. It shapes the decisions that shape our communities at every level. It should be as secure a process as possible and currently it is not. Asking citizens to make a little effort to ensure election integrity seems fair and reasonable to me, obviously with accommodation for those few who truly need it. Thank you!
