Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Do not require voting in person. Our vote by mail is secure. Voting by mail allows those that travel and those too elderly or ill to vote securely. This is a great system. Voting in person is cumbersome and makes it impossible for some to vote. I remember voting in person and it did not always go well. We are all busy yet want to vote.

If you want to make a change to voting, do like many countries do and charge a fine if people do not vote!
