

Submitter:

David Shaffer

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail enables more participation by a more prepared populace. It allows voters to participate elections on their own terms. This is important to maintain fairness in a society where most people are working many hours per week, and cannot always take time off to vote. Voting by mail also gives people time to consider and research the various candidates and ballot measures.
