

Submitter: Devon Taylor

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Our current state vote-by-mail system is secure, effective and makes voting available to many populations which could not otherwise vote if forced to go to a physical location due to medical constraints or work schedules. This effort to scrap a proven form of secure and valid voting is a nefarious effort by a party that has overwhelmingly been found to be the ones committing voter fraud. I vehemently oppose this effort at voter disenfranchisement.
