Measure, Appointment or Topic:

SB210

I fully support this measure, it is time to end mail-in-ballots once and for all. I am doubtful that this will make it through, and am more skeptical that Oregon, because of the larger cities that continually vote Democrat will change. I am glad to see this come up for a vote, which means there is a ray of hope. I recommend that everyone support this bill, on both sides of the aisle.
