Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This will create undue burden on those with the least flexibility in their schedules. Requiring in-person voting is a huge step backwards, disenfranchising voters that have mobility or transportation issues. Mail-in voting is the key to high voter turnout. If you want fewer people voting in key elections, then make in-person voting a requirement. If you want to give everyone a voice, keep mail-in ballots alive.
