Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I have been living in Oregon since 2001. Mail in voting has resulted in consistent high participation. I have lived in several states and this has easily been the best system. The system has been secure and resulted in minimal voter intimidation that has occurred at in person voting sites. I write in strong opposition to this bill and advocate for mail-in voting to continue to be the system of voting in Oregon.
