Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I categorically oppose making voting for elections in person rather than keeping mail in voting. We all know making mail in voting more difficult means less people vote, especially working class, disabled, or for whatever reason people choose to opt for mail in rather than vote in person. It is within our rights to be able to mail our vote in and attempting to repeal that is an attempt to suppress votes, let's be clear. Thank you for your time and consideration.
