

Submitter: Sidney Prescott

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

No system of voting in a democracy completely avoids voting fraud, even the proposed "vote in person" bill. This proposed bill would however make it much more difficult for Oregonians to retain their right to vote, especially for working families. It would discourage voting by asking people who are already pressed for time to wait in long lines. Our vote by mail system has been proven to be reliable and safe while encouraging excellent voter turnout. Unfounded fear and bias shouldn't Trump that!
