Voting by mail is one of the things I love the most about the Oregon system. It has meant I have voted in every election since I was eligible to vote and to do so on a time that works for me without having to take time off of work or take transport anywhere. Oregon voter turnout has been consistently good, even in special elections - why would we take a step backwards and make voting harder for people with schedule and transportation barriers. This is a waste of the legislators time - trying to fix something that isn't broken and is in fact working better as is.
