

Submitter:

Suzanne LaRuffa

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

The Oregon voting system works and has worked for many years! It is perfect in the way it works allowing citizens to actively study the issues and do our own research to conclude the best choices and vote accordingly. The convenience of voting by mail is one that is safe, secure and an intelligent choice. Especially important is it allows those with disabilities to vote! Not everyone can attend in person to vote; by rescinding our current voting system, you are putting a great burden on those who are elderly, disabled and/or employed and will not have the ability to vote in person.
