SB210

I vehemently oppose this bill. The only reason to get rid of voting by mail is if you support voter suppression. Voting by mail ensures that everyone has time to vote and cuts down on massive lines at in person voting booths. I grew up in a state that made it incredibly hard to vote by mail. Employers are supposed to let you off so that you can vote. News flash, they don't. All this bill is for is to make voting a hassle so more people don't vote. America already has a problem getting people to vote, we cannot make it even more difficult.
