Catherine Rust

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

We, the people of Oregon deserve to vote by mail. In person voting makes it inconvenient and makes voter accessibility and participation difficult. It unfairly impacts our seniors, people with disabilities, people living in rural areas, and people who have demanding work schedules. Being able to cast your ballot safely from home, ensures more citizens can cast their vote. Eliminating mail in voting, would intentionally make voting more burdensome and inaccessible. Every person deserves the right to vote, it's our fundamental right!
