Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

I prefer to keep mail in voting only in Oregon. It saves tax payer money and makes it easy for any registered voter to participate in this most American constitutional right to be part of the process to elect our representation in government. Several times now I would have been unable to vote in person if limited to that option due to health reasons - voting by mail was comfortable and convenient, especially when able to drop off at a nearby drop box. I fully trust the legitimacy and accuracy of mail in voting. I do not believe voting fraud is a problem that would warrant considering changing current Oregon vote by mail elections. Please vote NO to in person only elections in Oregon. Thank you.
