

Submitter: Janet Brittan

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I strongly oppose SB 210. Turnout by voters is greatly increased when given this added way in which to vote in every election. Not only does the vote-in process make it easier for all voters to carry out their civic duty, it also makes it easier for voters to participate who are hampered by health, age, lack of transportation or temporary physical location outside of voting district (but still registered to vote within said district).

I have neither heard nor read of abuse of this process that would warrant its dissolution.
