SB210

Please oppose this bill- there is no reason to force Oregonians to vote in-person. This is a transparent attempt to reduce voter turnout and hobble our democracy. Accusations that mail-in voting increases rates of voter fraud have been widely debunked, and this will most impact elderly or disabled voters, which will directly affect members of my family.

Thank you for your consideration, and for fighting for the will of Oregonians. We are trusting you to make the correct decision, that serves our citizens and our democracy. Thanks,

-Kate Durrant
