SB210

As a mother of young children, getting anywhere feels like an impossible task on any day. Having to have a good day in a certain day feels impossible. For all the parents of young children, making an extra trip and waiting in lines with young children, voting via mail is the best way where I could sit down and think about my vote, do my reading and research and make thought out decisions.

Also, as someone who works in public service (grocery store), we don't get enough time off to make the polls work. It is even more difficult for those that have long commutes. For those of us who work odd hours and don't get time off, even in weekends and federal holidays, mail in voting is the least stressful option .

Also, mail in voting has been working fine. Why stop something that works so well in our state? This adds complication to what is an easy, efficient and time-proven process.
