

Submitter: Terry Moore

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

To Whom It May Concern:

The right to vote is essential to our country and way of life in the United States of America. Oregon's vote by mail program was forward-thinking when it started and has been an example of great security and success. With our state population spread over vast square mileage, and weather and work often obstructive to travel for many Oregonians, and with a significant portion of elders, parents of youngsters, and folks with disabilities in our state, vote by mail is an example of a policy that works for everyone. It is respectful and efficient and effective. As research shows, the system is basically free of substantial fraud or tampering. It is something that works for Oregonians and works for Americans. Please oppose this limiting and impractical legislation.
