This is a horrible idea that goes against decades of good science and actual, factual studies of how best to conduct an election. The bill is being brought in bad faith by people who actively want to harm our state and our government. Their claim that this is for election security is a lie. There is absolutely zero evidence of any kind to support their baseless claims. This bill is bad for Oregon and bad for America and is simply one more MAGA attempt to undermine and destroy anything that is working well for the people of this state. I oppose this bill and so should anyone who supports facts, data, and logic over destructive, devious fear mongering. And the republicans should be ashamed of themselves. If they were still capable of shame.
