Hester van Heemstra

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by Mail increases voter turnout, and has been proven safe. There is NO reason to go back to in person voting on a single date. When you can fill in your ballot at home, you can take your time and make sure you will be able to submit it and not miss voting due to unforeseen issues(illness, accident, weather, working shifts, etc). WHY change a system that is working?
