In spite of elected officials assurances, vote by mail is brimming with fraud. From motor voter registration, multiple ballots sent to the same address, ballot drop box security, to delayed ballot counting and results, nothing is secure and voter roll audits are not permitted.

Oregon is a failed state. The crime rate, illegal migrants, drug overdoses, graduation rates, budget shortfalls, etc. support this statement. Voting fraud, encouraged by vote by mail, has enabled the deteriorating quality of life in Oregon.

Yet voter roll audits are not permitted.

Oregon hasn't had a conservative governor or legislature majority on over 30 years - ever since vote by mail became law.

Enough! Repeal vote by mail.
