Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Universal vote by mail has only been of benefit to Oregonians. It has enabled increased voter turnout, ensuring that all citizens have the chance to make their voices and opinions heard. There is no evidence that this has led to any increase in voter fraud. I heartily oppose making in person voting the default, as this would lead to increased difficulty for people with mobility issues, who are immunocompromised, who or have transportation issues.
