

Submitter: Shannon Cummings

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Voting by mail provides better access to voting for all Oregonians. It specifically helps people with disabilities, the elderly, and those that cannot take time off of work to vote. It also encourages people to vote in the safety of their home where they don't have to feel pressured or harassed to vote one way or another. It also enables people to take their time, read about all the candidates, understand arguments for and against certain bills, and partake in more thoughtful voting. All Oregonians should be able to vote by mail.
