Mail in voting in Oregon allows for voters to make informed decisions with time to research the issues and candidates while also empowering more voters from rural areas as well as those with inconvenient work schedules or responsibilities. Little if any serious fraud has been found in Oregon or Washington with their mail in systems and we have some of the lowest vote counting costs to taxpayers in the country! There is absolutely no reason to force in person voting beyond disenfranchising large portions of the population and costing the taxpayer more.
