SB210

I cannot believe that SB 210 has enough legitimacy to take up any time in the legislature. My tax dollars are paying for this? While the Oregon Health Authority is being sued for lack of appropriate care for the mentally ill in Oregon? While funding to the Oregon Health Authority is being clawed back by the Trump administration, increasing the detriment of care to the most vulnerable in this state? Shame on whoever brought this bill forward!

Oregon's vote by mail is the best, most efficient system in the United states. Oregon's election participation is one of the highest in the nation precisely because Oregon's Vote by Mail is intended to provide access to ALL Oregonians. Should this not be the goal? Oh, ok. This must be a Republican bill. Only Republicans want to limit access to voting! Again, shame on you for bring this bill forward! People who do not have even a fraction of the integrity of our voting system should not be allowed in our legislature!

NO! On SB 210
