

Submitter: Tracey Lewis

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Please do not eliminate mail in voting! Those of us in rural locations may have difficulty getting into town for in person voting. In person voting discourages people from voting, and this is the opposite of what we want in our country. I'm absolutely fed up with the attempts by certain political groups to make voting more difficult for the citizens of the US. It is so unAmerican!
