Mail in voting as the standard allows me to read and research each ballot measure and candidate at my own pace. It allows for much more informed voting as I can look up information and focus on one candidate or measure at a time without being rushed in a voting booth. It also makes it so I can easily vote without taking time off work. Also, I don't have to figure out childcare or bring them with me to stand in line for hours.

Mail voting as the standard eliminates barriers to voting participation and allows for informed voting. This measure should be strongly opposed.
