Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Tjhis is another way of limiting voter participation to the richer people who can easily drive to a voter booth!. The poor and elderly have less ability to get transportation to voter booths, especially in the less populated parts of Oregon. We have had mail-in voting for many years and there has been little fraud or errors. Please do not try to prevent people from using their right to vote! I have voted in both systems and I do not want to lose the right to mail my vote! In the alternative voting method my employers felt it was necessary to give their workers time off to give workers a good opportunity to participate in their right to vote, since people had to go to their voter precinct which was often a distance from their workplace. Please DO NOT let this measure pass!!!
