Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I very much prefer mail-in voting to in-person voting! I can take my time in my own home and go through the candidates for each position and really give it some thought. I would not be able to spend 1-2 hours in a voting booth thinking about my choices if it were changed to in-person voting. I also consider a physical ballot to be more secure than an electronic one; if that is also something that is being considered. Thank you.
