Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon has had mail in voting for years, with very little to no proof of fraud, only claims made by the conservative party. In person voting is unnecessary and a hardship for working people and folks who would have to travel to a voting booth and possibly take time off from work. Please vote no on this bill and retain Oregon's efficient and safe mail in voting system, which is a well-run example for all states!
