SB210

I have voted by mail for all but my first two elections. I have been voting by mail successfully for almost thirty years without committing mail fraud. There are millions of others just like me.

Voting at home is far superior because it allows the voter a far greater range of information. Voting at home is superior because nobody has to travel in awful weather to stand in a church basement. Voting at home is superior because it allows everyone to participate, whether or not their local polling place is actually accessible.

Please keep voting by mail, thanks.
