Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregonians have long cherished the vote by mail system, and would greatly oppose any change to this in the future. It not only makes voting more accessible for our entire state but for people who cannot physically stand or wait in line all day or miss work or find childcare, the list goes on. Oregonians will not cede to the ideals of project 2025, make no mistake voting accessibility is on their chopping block.
