Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon's vote by mail is the best thing that has happened for our state's election process in my lifetime. Every registered voter is included and able to vote securely if they choose to, without leaving the comfort and safety of their home. More voters rather than fewer exercise their right to vote, which regardless of their political leaning should be the entire focus of the exercise. Please do not do away with this valuable improvement to our rights. Not only should Oregon keep vote by mail, but all other states should also adopt it as well.
