Please do not change how we vote in Oregon. The voting process here in Oregon is extremely streamline, efficient, and easy for registered voters to vote. Having lived in both Nevada and California, when voting in these states I would often work a 12 hour shift in my hospital then tredge out to wait in a ridiculous line to vote. This process was extremely exhausting, time consuming, and took time away from my family. Please, please, please do not change the voting process.
