Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon's vote by mail system has been a tremendous success and benefit for us personally. It provides an opportunity to sit down at a table and consider the materials and voters guide for the measures and people on the ballot. It also allows us to vote at our convenience and without missing work. It is a great and secure means of voting. I expect that it increases the ability of people who want to vote to actually vote by removing barriers to voting, which should be an important goal of our state. Oregon should not make any changes to the current vote by mail system. Oregon definitely should not change back to a vote at a voting center system.
