Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose SB 210, which seeks to undermine our voting system. The changes proposed in SB 210 would disproportionately harm working people who can't get time off, as well as vulnerable groups such as senior citizens and individuals with disabilities. These populations rely on the convenience and accessibility of postal voting. Eliminating this system would create unnecessary barriers to democratic participation, further marginalizing those who already face challenges in casting their votes.
