

Senate Committee on Rules
Reject bill SB 210

I am an Oregon voter and I would like to register my concern that this bill being proposed would remove our mail-in voting. That is outrageous. We have had mail-in voting for decades and it has been legal, fair, and convenient. We can vote in privacy and security of our homes and at a time that is convenient.

In-person voting would make it difficult or impossible for so many people that I can only think that this bill has been proposed to suppress votes. It is not right to deprive so many people from their right to vote in our elections.

Please reject this terrible bill.

Thank you,
JJahnke
