

Submitter: Ian Oliver

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Oregon's vote-by-mail system is a mature, proven mechanism to vote, and we should keep it.

It is secure:

- * Vote by mail leaves a verifiable paper trail, unlike electronic voting.
- * Vote by mail is performed in the safety of a voter's home.
- * Any of the proposed attacks of vote by mail involve a person or group committing hundreds or thousands of felony counts for very little gain. This is why those attacks have never occurred at scale.

Please defend our current voting mechanism.

It is in line with the spirit of democracy, aligned with the needs of voters, and inexpensive to run. We would be crazy to throw it away!
