

Submitter:

Lily Ketzer

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This measure looks to take away the protections to democracy that so many have worked tirelessly to put in place. There is no data to suggest that voting by mail has any negative impact on elections and only strengthens our democracy. This would inhibit the ability of working class Americans, disabled Americans, particularly Veterans, and so many more from engaging in our shared right to vote.
