Mary Boynton

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I write this testimony in opposition to SB 210 because I believe mail in voting is crucial and absolutely necessary for a society constructed like ours. Citizens of Oregon have a lot on their plate including work, maintaining their family and homes, taking care of their health, grocery shopping, walking their dogs, taking their children to the doctor, the list goes on. Voting is also crucial and absolutely necessary in a society constructed like ours. To make this rightful act as accessible as possible, mail in voting should remain an option in Oregon State. Our government and state should also do what they can to ensure as many people vote as possible, which is another reason why mail in voting should remain an option. Please consider this, and do not pass SB 210, so that the citizens of Oregon can continue to vote in the masses and we can maintain an accessible voting structure.
