Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Please do NOT pass this bill that would gut our current Vote-By-Mail system! I am a senior citizen who would find it difficult to stand in a long line in possibly wet, cold, and/or windy weather. Our current system is both safe and convenient. The changes that are proposed would also make it difficult for me to prove my citizenship since I have had more than one (legal) name change such that my original birth certificate does not show my current name. The proposed bill is unnecessary and actually cruel. Imagine a parent with one or more small, active children being forced to stand in a long line. Imagine a person with physical disabilities being forced to wait in miserable weather in order to vote. This proposed bill would actually disenfranchise thousands of valid voters! Vote NO!
