Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Greetings and thank you for taking my testimony regarding this issue.

I feel as though in-person only voting is a restriction on our ability to vote.

Mail-in coating and drop boxes are convenient, safe and secure.

Current trends of trying to find 'massive voter fraud' are misguided and misleading-

Massive voter fraud does not exist in this country, or this State.

The true reason behind efforts to curtail voting is more sinister than a few misappropriated ballots.
